

STATE OF ILLINOIS

ILLINOIS COMMERCE COMMISSION

TO: Interested Parties

FROM: Charles C. S. Iannello – Senior Economist, Policy Program, EDIV

DATE: Tuesday, September 21, 2004

SUBJECT: Distributed Resource Interconnection Announcement

The Staff of the Illinois Commerce Commission ("Commission") is preparing a third revised draft Distributed Resource Interconnection Rule. Staff has departed from the tentative schedule listed in the Workshop Notice issued on December 31, 2003. Staff apologizes if this has caused any inconvenience. Staff will circulate a third revised draft for comment on or around Friday, October 22, 2004. Interested parties will be asked to provide comments by Friday, November 19, 2004.

Once comments are received, Staff will consider further revising the rule and possibly holding an additional workshop or submitting a final revised draft to the Commission with a recommendation to initiate a distributed resource interconnection rulemaking. The schedule for these actions will be set on a future date.

All documents related to this matter will continue to be posted on the following website: "<http://www.icc.state.il.us/ec/library.aspx?key=ecDGI>". If you have any questions or concerns regarding distributed resource interconnection issues, feel free to contact me.

Sincerely,
Charles C. S. Iannello
Senior Economist
